

Bubble Machine Instructions

Equipment Needed:

- 1 Bubble Machine
- 1 Extra bottle of Bubble Juice-if necessary

Set Up Instructions:

1. Place bubble machine on a level surface.
2. Ensure that the area is not in a high traffic area, and that machine is secure and will not be bumped or tipped over.
 - a. Running the bubble machine for an extended period of time may create a build-up of soap residue on the ground around the machine and could possibly cause slipping.
3. Direct the front of the machine to the area where you would like the bubbles to be blown.
4. Unscrew the two screws on the front of the machine.
5. Lift the front cover off to expose the bubble tray.
6. Fill the bubble tray $\frac{3}{4}$ full of bubble fluid.
7. Replace the cover and tighten the screws. Refill as needed.

Operating Instructions:

1. Turn on the switch and machine will begin blowing bubbles almost instantly.

Do NOT attempt to repair this machine in any way. Any damages to the machine due to customer attempting repairs will be charged to you.

WARNING / DANGER

- This bubble machine requires electricity to operate. Use caution to prevent accidental shock or electrocution.
- Prolonged use of this machine can result in a build-up of soap residue on the ground around the machine and could possibly cause slipping.
- Take preventative measures by keeping the floor/ground cleaned up, or by limiting foot traffic in that area.

Returning the Bubble Machine

All parts listed below must be returned in good working condition. Any parts missing or broken will be charged at the price listed.

U	Qty	Item	Price
'	1	Bubble Machine	\$ 225.00
