

Dip Bowl Instructions

Equipment Needed:

- 1 Dip Bowl Unit
- 1 Bowling Ball

Set Up instructions:

1. Place unit on table.
2. Make sure unit is as level as possible as this will change odds of winning if game is not level.
3. Place bowling ball in track and lift stop lever to hold ball from being played.

Operating Instructions:

1. Lower stop lever so ball rolls to end of ramp towards player.
2. Player rolls ball so it ideally stops just over the first hump without rolling back to starting point.
3. When ball first rolls past stop lever toward end of track, operator raises lever so ball is trapped on a losing play.
4. If ball returns to stop lever, player loses.
5. If ball comes to rest between first hump and far end of ramp, that's a winner!
