

# Fog Machine Rental Instructions

**NOTE:** Fog machine will be completely filled with fog solution when you pick it up. This is usually enough for one day of use. If you are renting for several days, you will need to purchase additional quarts of fog solution.

## Equipment Needed:

Fog machine unit w/ Remote control cord  
Quart of fog solution (if ordered)

## Set Up Instructions:

1. Plug fog machine into a standard 110 volt wall outlet.
2. Allow fog machine to warm up for 10-15 minutes minimum.
3. Point front nozzle in the direction you want fog to flow.
  - a. Do not block front nozzle.
  - b. Place machine so that nozzle has an open area in which to disperse fog.

## Operating Instructions:

### Timer Control

1. Above the green and yellow buttons are two knobs labeled "Duration" and Interval".
  - a. Duration is the length of time the fog will release from the nozzle.
  - b.
    - 1) Minimum will allow for a shorter burst of fog.
    - 2) Maximum will allow for a longer burst of fog.
  - 3) Interval is the length of time between each burst of fog.
    - 1) Minimum **will decrease the interval time between bursts of fog.**
    - 2) Maximum **will increase the interval time between bursts of fog.**
2. Using the remote control (which must be plugged into the rear of unit) press yellow button labeled "**Timer On/Off**"
3. Adjust the Duration and Interval buttons until the desired length of fog bursts and intervals between bursts are achieved.
4. Fog will now be released automatically.
5. Press the yellow button again to turn off the timer.

## Manual Control

1. Using the remote control (which must be plugged into rear of unit): press and hold the green button labeled “manual smoking”.
2. Fog will release from the front nozzle the entire time you hold the button down (until more needs to be pre-heated).
